DECLARES CHINA IS PERFECTLY NEUTRAL

Russia Will Try to Get Even For Loss of Fortress.

MANY SICK AT PORT ARTHUR

British Ship Captured by Japanese Is Condemned as a Naval Prize—Vessel Was Bound for Vladivostok Loaded with Coal.

Peking, Jan. 21.—A high official of the Chinese foreign office said in an interview today that the neutrality of China was assured now as hitherto. Every precaution had been taken, the official declared, and he could only suppose that the present Russian complaints were intended to constitute a pretext for further demands as compensation for the loss of Port Arthur.

The official emphatically denied that there was any connection between Chinese neutrality and anti-foreign feeling, instancing the prompt suppression of the disturbance at Shanghai in connection with the delay in bringing to trial the Russian sailors who killed a Chinaman there as the result of a dispute about the hire of a Japanese.

Tokio, Jan. 21.—It is stated that there are 18,556 sick and wounded Russian prisoners at Port Arthur. Of these, 3,657 are connected with the navy.

Business men of this city celebrated the capture of Port Arthur today. A few speeches were made by Premier Katsun, Vice Admiral Togo and the ministers of war and the navy. An encampment of the emperor left the Gumbashi station, taking with him the carloads of imperial gifts for the officers and men of the armies in the field.

Jan. 12 on board the French steamer Arthur harbor at the entrance and pump out the water preparatory to sailing the Russian war vessels. Discussing the matter, a naval officer today said that under ordinary circumstances such a great work would be unprofitable, but in view of the number of ships possibly salvable and the shallowness and smallness of the harbor, it was the most economical method.

Nagasaki, Jan. 21.—The British steamer Leathington has been condemned by the naval prize court at Sasebo. The Leathington was captured on Jan. 12 in the Shusima straits by Japanese torpedo boat destroyer No. 72. She had a cargo of coal on board and was bound, it was said, for Vladivostok. She was taken to Sasebo.

Shanghai, Jan. 21.—General Stoessel and a large number of the paroled officers and others have arrived here Jan. on board the French steamer Australien which left Shanghai today for Marseilles. The Russians highly praise the Japanese for their bravery, fairness and chivalry at the surrender of Port Arthur, which was due mainly to the impossibility of resisting the Japanese 11-inch shells after the capture of 203 Meter Hill. Besides, it is stated, the Russian supplies were entirely exhausted.

NO NEW CABINET YET.

President of France Hard at Work on Problem.

Paris, Jan. 21.—The cabinet crisis is still in progress. President Loubet today received a number of senators and deputies but did not give the slightest indication of his intentions.

If Henri Brisson is called, it will be a formal courtesy, as he is not willing to act owing to his recent defeat for the presidency of the chamber, showing his inability to command a majority.

After M. Brisson the names of M. Rouvier, with a new or revised policy, and M. Sarrien, with the old policy, are mentioned.

No decision will be reached before night, and the government officials believe the crisis may be prolonged for several days.

SECOND CHARGE AGAINST HIM.

Dr. Irvine Still After Bishop Talbot for Unfrocking Him.

New York, Jan. 21.—A second presentation to be brought against Rt. Rev. Ethelbert W. Talbot, bishop of the diocese of Central Pennsylvania, upon charges made by Dr. Ingram N. W. Irvine, who is now being prepared as the result of a conference held in this city contains, it is understood, in the main, only two charges. The first is said to be "immorality," meaning "lying," and the second, "violations of ordination vows."

The views are based on a letter and contains nineteen charges, but more may be added before the paper is finally sent to Presiding Bishop Tuttle, of St. Louis.

Charges of "violation of ordination vows," rest solely upon the unfrocking of Dr. Irvine, and draws the Episcopal divorce canon, which was recently enacted, into the controversy.

The charges against Bishop Talbot in connection with Mrs. Elliott, of Huntingdon, are reiterated, and several new side-features have been added.

There may be, it is said, a third charge, but the presenters have not yet decided on this.

COULD NOT CONTROL BRAKES.

Engineer and Firemen Killed and Several Others Wounded.

Charleston, W. Va., Jan. 21.—In a wreck on the Pocahontas and Pocahontas railroad two men were killed and another fatally injured. The dead: James Keese, engineer, body crushed beneath engine.

Harry Jones, fireman, crushed to death beneath the engine.

The injured:

Unknown boy, aged 14, both legs broken and internal injuries; will die.

The victims of the wreck had been engaged in dropping coal cars from Powelton, to Mount Carbon, a distance of 8 miles.

A steep grade extends along this route, and when the work had been nearly completed, the engine started down the steep grade at a break-neck speed.

Engineer Keese was unable to control the brakes or shut steam. A mad chase for a distance of 3 miles followed. At a sharp curve near Mount Carbon the engine left the rails and plunged down a 20-foot embankment. Both Keese and Jones leaped from the cab, but were too late and were plumed beneath the engine and were crushed to death.

BILL RAISER CAPTURED.

One of the Cleverest Crooks in the West Arrested and Jailed.

Chicago, Ill., Jan. 20.—Representing himself to his wife of a year as a government secret service agent and in a luxurious apartment in Prairie avenue, but in reality declared to be the cleverest bill raiser who has worked in the west in recent years, having made it is said, \$8,000 since last January, the story of the career of W. S. Kirk has come to light.

Kirk's bill was raised by Judge Sanborn of the United States district court from \$5,000 to \$10,000, after C. E. Thomas, of the secret service, had testified to his operations and exhibited his implements and raised bills.

Kirk was arrested in Aurora, giving the name of Charles Clemons. He was brought to Chicago and his young wife learned that she had been deceived.

Reforms in Macedonia.

Constantinople, Jan. 21.—In accordance with one of the provisions of the Austro-Russian reform scheme for Macedonia, the embassies of Austria and Russia have now submitted to the Porte a plan for the financial administration of the three Macedonian vilayets providing for the control of the receipts and expenditures by financial inspectors and civil agents, under the introduction of a regular annual budget in each vilayet.

"Sunrise" Express Wrecked.

Durham, N. H., Jan. 21.—A number of persons were injured, four seriously, by the wrecking of the "Sunrise" express on the Boston and Maine railroad near here today. No one was killed. Four cars were thrown from the track. The train was bound from Halifax and St. John for Boston.

BIG STRIKE IS ON IN ST. PETERSBURG

Workingmen Petition Emperor To Help Them.

PETITION EXPRESSES DEVOTION

Strikers Have Broken Into Factories and Printing Offices and Compelled Men to Quit Work—Troops have Been Called Out.

St. Petersburg, Jan. 21.—The employees of the Sangalli and Kolinkin Spinning mill ceased work today and considerable further accessions to the ranks of the strikers are expected in the course of the day.

The men already in pursuance of the plan to enforce a general strike, are parading the streets of the Basil Island district compelling workshops, print shops and small shop keepers to close.

It is estimated that bands so engaged aggregate 5,000 men. They have broken into several factories and into printing works of the academy of science, forcing the employees to join them. The management of the printing works, which is a government establishment, acting on the advice of the police, agreed to the men giving up work so as to avoid a disturbance.

A petition to Emperor Nicholas now circulating at the workmen's meeting for signatures, bitterly complains of the desperate condition of the workers and their deprivations of human rights.

The petition expresses devotion to the emperor, and concludes:

"Be merciful to us! Let us live if thou leavest us in this position, we prefer to die!"

As the day progressed the ranks of the strikers were rapidly augmented. Delegations, each 200 strong, visited all the factories and printing shops, threatening to compel a cessation of work unless the employees voluntarily joined in the strike.

Practically all the small establishments in St. Petersburg are already closed in response to the demands of the strikers, while the printing works and tobacco factories are following suit.

One of the leaders of the strikers, visited the office of a recently established news agency and informed the printers that unless they joined the movement the building would be wrecked. The printers, numbering about 100, promptly quit work and the news agency is now sending out its news in stenciled sheets instead of printed. The troops have been called out.

LOW RATES TO ATLANTIC PORTS

Now on a Favorable Basis With the Gulf Seaboard.

New York, Jan. 21.—While no official announcement has been made, it is understood, according to the Journal of Commerce, that the railroads east of Chicago have met the cuts in rates by lines to the gulf ports. It is said the reductions named by the roads east of Chicago amounts to 2 1/2 cents a hundred pounds, making the export rate by way of New York 11 cents without the usual all-rail differential of 2 cents to Philadelphia and 3 cents to Baltimore.

These reductions, according to the grain shippers, who already have made large sales for export, place the Atlantic ports, and especially Baltimore, on a fairly favorable basis in competition with the low tariffs named to the gulf.

Davis' Portrait Presented.

Jackson, Miss., Jan. 21.—Robert E. Lee's birthday was observed in this city Thursday night by the presentation of a portrait of Jefferson Davis to the state of Mississippi by the Daughters of the Confederacy. The presentation was made by Miss Kate Porter the president of the local chapter, and the portrait was accepted by Governor Vardaman, who in turn conveyed it to Director Rowland, of the department of archives and history, where it will be given a prominent place in the Bluebird hall of fame.

RAILROAD MEN ARE IN SESSION

Will Try to Settle Trouble on Pennsylvania.

Philadelphia, Jan. 21.—The board of adjustment with Grandmaster P. H. Morrissey and first Vice Grand Master W. G. Lee, went into session at the Royal hotel at 9 o'clock today.

Mr. Morrissey said that while he expected to see General Manager Atterbury of the Pennsylvania railroad during the day, he had no positive engagement with him. It is understood that Mr. Atterbury will set a time when he will receive the members of the board.

It is believed the proposition which Mr. Morrissey will make to Mr. Atterbury is that extra firemen be placed at various points along the Pennsylvania railroad where it is necessary for the regular fireman to have assistance. This, it is said, is what the board of adjustment has had in view, and the board claims that it is not only practicable, but an easy way out of the difficulty.

The conference of the board of adjustment adjourned at 11:45. Grand Master Morrissey and First Vice Grand Master Lee immediately returned to their hotel. They refused to make a statement as to what had been discussed by the board during the morning.

General Manager Atterbury has fixed 2:30 this afternoon as the time for the conference with the board of adjustment and Mr. Morrissey and Mr. Lee.

BIG ATTENDANCE EXPECTED

Much Interest Shown About Cotton Growers' Convention.

New Orleans, Jan. 21.—From recent indications 2,000 delegates will attend the national cotton convention, which will be held in New Orleans Jan. 24, 25 and 26. Advice received from the cotton growing states show that widespread interest is being manifested, and the farmers are holding precinct meetings and appointing delegates to attend the convention. Delegations of bankers from all sections of the cotton belt have been invited to be present. The Progressive union has secured the Washington Artillery hall for the holding of the convention. The most important matters to come before the convention are plans for the warehousing and holding the surplus of the present cotton crop for better prices and an organized crop that will be grown next season. Several plans have been proposed for urging the farmers to hold their cotton, but no single plan has been definitely agreed upon by the leaders of the movement. At every precinct meeting held so far the farmers have adopted resolutions pledging themselves to reduce the acreage of the next cotton crop 25 per cent.

\$150,000 Fire at Terre Haute.

Terre Haute, Ind., Jan. 21.—Fire, estimating a loss of \$150,000, broke out early this morning in the lower plant of the Terre Haute Traction and Power company, and business is paralyzed to a considerable extent. No street cars are running and the evening papers have abandoned the earlier editions. At noon the street car management announced that horse cars would be placed in service this afternoon. The fire originated in the boiler room and dynamos and engines were badly wrecked.

South Wins Cocking Main.

Cincinnati, Jan. 21.—The south won the cocking main of north and south fought on the Kentucky side of the river near here, the first contest ending today. D. H. Pearce, of Appleton, Wis., represented the north and E. F. Cook, of Springfield, Mo., represented the south. Sixteen couples fell in and thirteen fights were held, Burke winning nine and the main. Men were present from many states, and it is estimated that \$75,000 changed hands on the result.

Road Convention in Session.

Jacksonville, Fla., Jan. 21.—The National Good Roads association met here Thursday and was attended by a large number of delegates from all parts of the country. One thousand delegates were appointed by Governor Broward from Florida alone. A. B. Mann, vice president and national organizer of the Good Roads association, presided.

REED SMOOT GOES ON WITNESS STAND

Entire Senate Committee Hears His Testimony.

SENATOR PERFECTLY AT EASE

Declares He Has Only One Wife and the Father of Six Children—Says He Has Taken No Oath of Any Kind. Other Washington News.

Washington, Jan. 21.—Senator Reed Smoot was put on the stand in his own defense today in the investigation of protests against the senator retaining his seat in the senate. A minority of the committee on privileges and elections has been attending the hearings, but when it was announced that Senator Smoot would testify the absentees were sent for.

No previous announcement had been made, but the senator had not long been under examination before the seats in the committee room were filled.

Counsel for the defense were closeted with the senator throughout the morning. He was late in arriving at the capitol, but stated that he expected witnesses failed to appear and had decided to examine the senator at once in order not to lose a day. He conducted the direct examination.

Senator Smoot was at his ease as every eye in the room was directed to him. The first questions were as to the senator's nativity. He said he was born in Salt Lake City in 1832. His father and mother were both dead. His mother was a plural wife. Concerning his own family, he said he was married Sept. 17, 1884, and has but one wife. They have six children. He said at the time of his marriage he did not take the endowments, but that in 1880 he had gone through his endowment house at the request of his father, before taking a trip to the Sandwich Islands with his father for the benefit of his father's health. He said he told his father at that time he did not care much about taking the ceremony.

Senator Smoot said he had been engaged in the mercantile business most of his life. The only office in the church that he has held other than that of apostle was counsellor to the high priest. It has been proposed to dam Port and he declared that he had taken no oaths of any character when he became counsellor nor had he taken any other when he became an apostle.

In the House.

Washington, Jan. 21.—Soon after convening today the house agreed to a change in the hour for holding the Ingalls statue ceremonies tomorrow from 3 o'clock to 3:20 o'clock. Consideration of the army appropriation bill was then resumed.

In the Senate.

Washington, Jan. 21.—Immediately after the senate was called to order today President Pro Tem. Frye laid before it a telegram from the governor of New Mexico transmitting a memorial adopted by the legislature of that territory protesting against the union of New Mexico and Arizona in one state, and urging the admission of New Mexico as a state. One of the resolutions urged for admission was the fact that New Mexico supplied more than half of the members of the regiment of Rough Riders, commanded during the Spanish war by Colonel Theodore Roosevelt.

Floridian Before Committee.

Washington, Jan. 21.—The senate committee on interstate commerce today heard an argument by R. Hudson Burr, of the Florida railroad commission, who is a member of a committee appointed by the National Association of Railway Commissioners, appointed at the last meeting of the association, held at Birmingham, Ala., to present to congress the necessity of an increase of the powers of the interstate commerce commission so as to authorize it to fix rates. He said there was a crystallized public sentiment which represents about 95 per cent of the people in support of the proposed legislation.

A FEW HOMELY THOUGHTS

For the Readers of The Sun—Sug-
gested by Citizens and Others in Our
Midst—The Library Question—Other
Matters of Interest.

[BY W. W. ASHLEY.]

Why don't you go farther South?" asked one Gainesville visitor of another, on the street a few days ago. "I will tell you in a few words," was the reply. "If all the towns in Florida had a better climate, more to see and attract the visitor than Gainesville, and was better in all ways except one than this city, that one item, pure drinking water as well as the best water for bathing, would more than make up for the other attractions. Pure water is necessary for good health, and when you realize that the water from the Boulware Spring, with which the city of Gainesville is supplied, is nearly absolutely pure, it is an item worth considering."

It is a standing joke in every municipality that laborers do not exert the same energy while employed at city work as they frequently do when engaged for individuals, and although this may sometimes be brought about through indisposition to physical exertion, it is a condition that is often commented on by observers who are frequently seen idling about making pungent remarks about people who work. A few days ago as the court house clock slowly pealed the hour of eleven, a fellow standing near was heard to say: "I declare, that clock strikes as though it was working for the city."

Circus day makes the children have a desire to appear at their best, in order to give them courage to ask the stern parent for money to purchase a ticket to attend the performance. A few days ago, after the flaming posters had been placed on the bill boards announcing John Sparks' Old Virginia Show, a lad of 15 was figuring on getting the price of a ticket. The inflexible parent had not shown any symptoms of liquefaction, and after some hours of deep meditation, the lad was heard to remark that he hoped the sun would come out bright on the day of the circus. "Because," he said, "it will need its hottest rays to thaw the Colonel out so he will buy me a ticket."

"Perhaps the subject has been worn threadbare," said a winter visitor, "but it seems to me that an effort should be made to establish a library and reading room in Gainesville. If a library and reading room were opened where people could go and read books and papers, even if they had to pay a small sum, many would gladly do so. A room where winter residents could, if they desired, go and meet others, discuss matters and perhaps organize a club, would also be a very arrangement, and the members of such a club would pay a reasonable rental for the same. Let a number call a meeting and see what can be done."

Speaking of "winter visitors" reminds the writer that Gainesville does not have any "tourists." At least they are not treated as such in this city remarked a lady a few days ago. Tourists are a class of people that go about for pleasure and are "plucked" by those they come in contact with. The people who come from out of the North, East and West to Gainesville come for health, when they are generally successful, unless they are in the very last stages of disease. And they are always treated with the utmost fairness by the residents of the city and their stay made as pleasant as possible. A short stay will convince anyone of this fact.

Those who watched the elephant being driven to the show grounds Saturday observed the inhuman specimen in grimy men's attire marching behind him, carrying a sharp rod and prodding the poor beast at nearly every thrust of the weapon, which caused many tender-hearted ladies to turn their heads from the cruel specimen of humanity behind the noble animal and shudder. There are many such scenes that a Society for the Prevention of Cruelty to Animals would have a tendency to stop.

It is a pleasure to grasp the hand of some of our old friends, who give you

This is absurd on its face. You might as well extract the active principles of wheat and make bread with them. The best form of cod liver oil, that can be digested and assimilated most easily, is Scott's Emulsion.

a shake that makes you feel they are glad to see and welcome you. It is not so with some of the hand-shakes of the society folks you meet, which is like shaking at the end of a snake's tail—you don't work at it any longer than you have to. Some men carry their heart in their sleeve and are not afraid to show it, as in such cases it is large enough to be seen.

Miss Norton has a card explaining the system in another part of this paper, to which the attention of those interested is invited.—Editor.]

ANOTHER TRANSFER.

Mrs. C. R. Layton Purchases Handsome Home of W. L. Hill.

There has been another valuable transfer of real estate in this city, Mrs. C. R. Layton having recently purchased the elegant home of Mr. and Mrs. W. L. Hill, corner Columbia and University streets.

This home is one of the neatest and most modern in the city. The building contains nine rooms, is conveniently arranged, and is an ideal home for any family. It is desirably located in a fine neighborhood, and altogether is a most desirable property.

Mr. and Mrs. Hill will continue to occupy the premises for the present, Mrs. Layton having purchased the same as a matter of investment.

TWENTY YEARS FOR MURDER.

Circus Performer Who Killed Son Goes to Penitentiary.

Kansas City, Jan. 21.—John Martin Speymer, a circus performer, formerly of New Orleans, who killed his young son while showing in Kansas City two years ago, was today found guilty of murder in the first degree.

At his first trial he was given a sentence of 20 years in the penitentiary and appealed. Officers had gone to the circus tent to serve a warrant upon Speymer, charging him with assaulting a young girl and a mob threatened to lynch him, when he broke away, cut his child's throat with a razor and then tried to commit suicide.

Speymer said he killed the boy to save him from disgrace.

Old Confederate Killed.

Nashville, Tenn., Jan. 21.—A dispatch from Scottsboro, Ala., says that a man named Winkles, an old confederate veteran, was shot and killed by Ike Watts, and a man named Staples, at Grant postoffice. Robbery is said to have been the object of the murder. Watts and Staples have been arrested. The feeling against the men is bitter.

TRIPLE TRAGEDY IN VIRGINIA.

Insulting Remark to a Woman Is the Cause of Three Deaths.

Roanoke, Va., Jan. 21.—Meager details of a triple tragedy enacted in Franklin county, 20 miles south of Roanoke, Thursday evening, reached here today.

James Abshire and his son fought a revolver duel with L. A. Pradd and a man named Holley, as a result of which the three first named are dead and Holley, who escaped injury, is said to be in jail.

It is said that one of the four men, is alleged to have offered an insult to the wife of one of the other three men, and that the four men met at the home of Drury Hanes, on the Roanoke and Calloway pike, where the shooting took place.

After the first round it is said the two Abshires and Pradd were on the ground, wounded.

One of the Abshires is said to have reloaded his shotgun and deliberately blown Pradd's head off.

Sickening Shivering Fits

Of ague and malaria can be relieved and cured with Electric Bitters. This is a pure, tonic medicine; of especial benefit in malaria, for it exerts a curative influence on the disease, driving it entirely out of the system. It is much to be preferred to quinine, having none of this drug's bad after effects. E. S. Mundy of Henrietta, Tex., writes: "My brother was very low with malaria fever and jaundice, till he took Electric Bitters, which saved his life. At all druggists. Price 50c, guaranteed."

BURIED ALIVE BY LANDSLIDE.

Seven Men Meet Instant Death in Dig Cave-In.

Antoine, Ark., Jan. 21.—Seven men were buried alive under a great mass of dirt and rock as the result of a cave-in in a deep cut 5 miles north of Antoine on the Gordon and Fort Smith railroad.

All the men who were killed came here with a large number of others from St. Louis and nothing was known of them locally. The accident occurred when one hundred and fifty men were working in the cut. The cut is about 50 feet deep at that point and the seven men who were caught in the cave-in were buried under some 20 feet of rock and dirt.

A force of men were put to work at once, clearing away the debris in which they were buried, but it will take some time to clear away the enormous amount of rock and dirt that is piled high upon them.

Cured Lumbago.

A. B. Canman, Chicago, writes March 4, 1903: "Having been troubled with lumbago at different times and tried one physician after another; then different ointments and liniments, gave it up altogether. So I tried once more, and got a bottle of Ballard's Snow Liniment, which gave me almost instant relief. I can cheerfully recommend it, and will add my name to your list of former soldiers." 25c, 50c and \$1. Sold by W. M. Johnson.

Mortally Wounded by Negro.

Lexington, Jan. 21.—C. A. Wagoner, a carpenter, was perhaps mortally wounded in his own home early today. He told the police that a negro had entered his house and made an attempt to criminally assault his wife, and in his endeavor to protect her, he was shot by the negro, who then made his escape. Sixteen men have been arrested on suspicion. There are conflicting stories concerning the crime, and the police are investigating Wagoner's story.

A Lord Sold Into Slavery.

Charles Reade found the hero of his novel, "The Wandering Heir," in the person of Lord Altham of Ireland, who was sold as a "redemptioneer" at Philadelphia in 1728 and who served for twelve years in effect as a slave to one or more masters in Lancaster county, Pa. The young nobleman was recognized by two Irishmen who came by accident to the house where he lived, and Admiral Vernon afterward took him back to Ireland. Reade laid the scene of Lord Altham's servitude in northern Delaware, but it is pretty well established that this was an error.

DEATH OF COLORED WOMAN.

Sarah Simons Passed Away Under Very Mysterious Circumstances.

There has been a mysterious death from the effects of laudanum on North Pleasant street, and Sarah Simons, a highly respected Christian colored woman, was the victim.

Deceased had been a resident of this city for some years. She was an earnest, energetic, Christian character, and was highly regarded among her race. Early Saturday morning her husband, who had been away for the night, returned, and found her in bed dead, with a partly-emptied bottle of laudanum near her side.

It is not believed, however, that the woman committed suicide or took her own life purposely. She lived happily with her husband, they were in comfortable circumstances, and there was no apparent reason for such a rash act. It is believed by friends that she had taken the laudanum to relieve some pain, and accidentally got an overdose.

OFFICERS INSTALLED.

Woodmen of the World Held Interesting Meeting Thursday Evening.

There was an interesting meeting of Archua Camp, Woodmen of the World, Thursday evening, at which officers for the ensuing term were installed as follows:

N. R. Carter, consul commander; J. B. Frooks, lieutenant advisor; J. K. Magin, banker; Clarence Harrod, esq.; L. A. Jernigan, clerk; William C. Maxwell, sentry; Percy Pardu, watchman.

A great deal of interest was manifested in the meeting, which was well attended. A review of the past year showed the camp in excellent condition. Some members reported that they would bring in applications for membership at the next meeting, and the probabilities are that within the next few months there will be several accessions.

Signal Corps Enlistments.

Commandant Hughes of the East Florida Seminary has received from the office of the chief signal officer, War Department, United States Government, the following circular relative to enlistment in the signal corps, which may prove of interest to many:

Civilians are not employed, but enlistments of desirable persons will be made as privates, and promotions to the higher grades made on merit as vacancies occur and the soldier's qualifications, conduct and service justify. Promotions are usually rapid in the case of men of high character, who show proficiency in special phases of electrical or other signal corps work.

The grades and pay of enlisted men of the signal corps per month are as follows:

Master signal electricians, in U. S. \$75.00, abroad \$80.00; first-class sergeants, in U. S. \$45.00, abroad \$54.00; sergeants, in U. S. \$34.00, abroad \$40.00; corporals and cooks, in U. S. \$20.00, abroad \$24.00; first-class privates, in U. S. \$17.00, abroad \$20.40; privates, in U. S. \$13.00, abroad \$15.60, with a slight increase each month after three years' service. All enlisted men (in addition to their regular pay) receive rations, quarters, clothing, fuel, bedding, medicine and medical attendance when required.

SKIN DISEASES

Altoona, Pa., June 20, 1903.

I was afflicted with Tetter in bad shape. It would appear in blotches as large as my hand, a yellowish color, and scale off. You can imagine how offensive it was. For twelve years I was afflicted with this trouble. At night it was a case of scratch and many times no rest at all. Seeing the good the medicine was doing a friend who was taking it for Eczema, I commenced it, and as a result the eruption began to dry up and disappear, and to-day I am practically a well man. Only two tiny spots are left on the elbow and shin, where once the whole body was affected. I have every confidence in the medicine, and feel sure that in a short time these two remaining spots will disappear. S. S. S. is certainly a great blood purifier, and has done me a world of good. I am grateful for what it has accomplished, and trust that what I have said will lead others who are similarly afflicted to take the remedy and obtain the same good results that I have.

125 East Fifth Ave. JOHN F. LEAR.

While washes, soaps, salves and powders relieve temporarily, they do not reach the real cause of the disease. The blood must be purified before the cure is permanent. S. S. S. contains no potash, arsenic or mineral of any description, but is guaranteed purely vegetable.

Send for our book on the skin and its diseases, which is mailed free. Our physicians will cheerfully advise without charge any who write us about their case.

DR. GOLDSTEIN RETURNS.

After Ten Days Spent in Ocala Has Again Located at Brown House.

After a visit of ten days in Ocala, Dr. G. Goldstein has returned to this city, and is again located at the Brown House, where those who desire optical treatment may consult him.

In a letter to The Sun a day or two ago, Dr. Goldstein says: "I am anticipating with a great deal of pleasure and interest my return to Gainesville. The more a fellow visits your city the more he loves it, and the longer he remains away the more anxious he becomes to return. Gainesville is all right, and I congratulate those who have the honor to be residents. I would be a resident myself if my professional duties would permit."

Dr. Goldstein does not know just how long he will remain, but promises to stay as long as possible.

Compliment to Clerks.

As a token of appreciation for their faithful services, S. J. Thomas invited his employees to an oyster supper and smoker at his elegant home Friday evening. Oysters were served in all styles, and it is needless to add were greatly enjoyed. At the conclusion of the supper fragrant cigars were passed, and the gentlemen enjoyed a sociable evening in the drawing-room.

Those present were R. E. Hill, W. J. Denby, D. C. Warner, Chas. Lynn, George Evans and George Perry. Others of the firm were invited, but circumstances were such that they could not attend.

The employees of this popular house feel deeply under obligations to Mr. Thomas for this highly appreciated treat.

Death of Mr. Harper.

A. R. Harper of this city Saturday night received information by telegraph of the death of his father, which occurred at his home in Rome, Ga., some time during Saturday.

Deceased was in his seventy-third year, and was one of the most widely-known residents of that section. He was a Confederate veteran, having seen hard service during the great Civil War. For some time he has been afflicted with paralysis, which was the direct cause of his death.

Mr. Harper is survived by a devoted wife, four daughters and one son, A. R. Harper. The sympathy of friends is extended in this hour of bereavement.

Funeral of William Wells.

The funeral of William Wells was held from the home of Mrs. Rachael Wells, North Gainesville, at 11 o'clock Saturday morning, the services being conducted by Elder Crier of the Seventh Day Adventist Church. The interment was in Evergreen cemetery.

A great many friends of the deceased were present to pay the last tribute to his memory, and the majority of them followed his remains to their last resting place. The service was very sad, touching and impressive, and the surviving members of the family have the sympathy of The Sun and other friends.

The Gainesville Library.

I have assumed the management of the Gainesville Circulating Library. A library I believe to be a long felt want in our city, among ourselves; and I feel sure it will prove a great attraction to visitors. It is entirely a private venture with me, consequently its success will depend upon the patronage given me. My terms are exactly the same as those offered in Atlanta and other Southern cities, one year's subscription—allowing you to read as you please without any additional fees or cost—\$5.00, or upon payment of \$1.50 I will enter your name on my books for one year's membership and you can take out any book as you wish, paying two cents a day until it is returned.

To the non-resident members of the faculty of East Florida Seminary, the non-resident members of the faculty of the Gainesville Graded and High School and the non-resident students of both and tourists and visitors, I offer the special rate of \$1.50, with no extras from now until the first of May. This applies only to non-residents, and only for the length of time stated. The time allowance on each new book will be one week. After the books have been in the library a while the time allowance will be extended to two weeks. Anyone defacing or destroying a book will be required to pay damages.

I shall do all in my power to make the library a success, and an advertisement and help to the town. Will you help me by subscribing?

The library will be located at the office of the Gainesville Sewing Machine Company. NORA NORTON.

In the Mayor's Court.

Harry Mulberry, colored, had some misunderstanding with a chocolate-colored damsel in the classic shade of that section traversed by the Seaboard Air Line Friday night, and it is said exercised his displeasure by kicking her and inflicting severe bruises. The damsel had "Mistah Mulberry" arrested and arraigned before the mayor, when he was assessed a fine of \$2.50 and costs.

"I tell yer, Mistah Mare, dat 'oman didn't treat me right. She dun 'vited me to her house and when I got dere she say ter me ter git out. I jis hauled erway and sorter kicked her playfully, 'cause I thought she was a foolin' wid me," remarked the defendant.

"Well, you must have been playing pretty rough," replied the mayor, "for witnesses who have seen the effect of the kick say it's a bad bruise, so you must pay \$2.50 and costs or exercise your muscle on the street." The fine was paid.

Attention, Masons.

There will be a meeting of Gainesville Chapter No. 2, R. A. M., at Masonic Hall Monday evening, beginning at 7:30 o'clock.

Held for Girl's Murder.

Bedford, Ind., Jan. 20.—City Marshal James Myers arrested Frank Evans and Elmer Browning this evening on a warrant charging Evans with the murder of Sarah Schafer, the Bedford High school Latin teacher, who was murdered the night of Jan. 21, last. Evans is a stone grinder, and is employed at the Bedford-Salem stone mills.

Railroad Man Commits Suicide.

HOW THE BUSHMAN FINDS HIS WAY BY MEANS OF LANDMARKS.

Every Detail of a Route Over Which He Has Once Passed Is Photographed on the Brain of the Alert and Observant Trapper.

What appears marvelous and positively uncanny to a town person is simple to a bushman.

Years of continuous observation develop the bump of locality; every object has a place and meaning to a trapper; his eye is ever on the alert, and what his eye sees is photographed on the brain and remains there for future reference at any time he may require it.

This bump of locality is highly developed in all Indians and whites who have passed many years in the bush. Without the faculty of remembering objects a bushman could not find his way through the forests.

Provided the trapper has once passed from one place to another he is pretty sure to find his way through the second time even if years should have elapsed between the trips. Every object from start to finish is an index finger pointing out the right path. A sloping path, a leaning tree, a moss covered rock, a slight elevation in land, a cut in the hills, the water in the creek, an odd looking stone, a blasted tree—all help as guides as the observant trapper makes his way through a pathless forest.

Of course this tax on the memory is not required of trappers about a settled part of the country, but I am telling of what is absolutely necessary for the safety of one's life in the faraway wilds of the north, where to lose one's self might mean death.

I followed an Indian guide once over a trail of 280 miles, where we snowshoed over mountains, through dense bush, down rivers and over lakes. To test my powers of a retentive memory the following winter, when dispatches again had to be taken to headquarters, I asked the Indian to allow me to act as guide, he following.

On that long journey of ten or twelve days, always walking and continually thinking out the road, I was in doubt only once. We were standing on the ice. A tongue of land stood out toward us, a bay on either side. The portage leaving the lake was at the bottom of one of these bays, but which? The Indian had halted almost on the tails of my snowshoes and employed my hesitation, but said nothing. To be assured of no mistake I had to pass over the whole of last winter's trip in my mind's eye to the point on which we stood. Once the retrospect caught up with us, there was no further trouble. Our route was down the left hand bay.

When the Indian saw me start in that direction he said, "A-ake-pu-kutan" ("Yes, yes, you are able").

The most difficult proposition to tackle is a black spruce swamp. The trees are mostly of a uniform size and height, the surface of the snow is perfectly level, and at times our route lies miles through such a country, and should there be a dull leaden sky or a gentle snow falling there is nothing for the guide to depend on but his ability to walk straight.

It has been written time and again that the tendency, when there are no landmarks, is to walk in a circle.

By constant practice those who are brought up in the wilds acquire the ability to walk in a straight line. They begin by leaving a trail from point to point on some long stretch of ice, and in the bush where any tree or obstruction bars the way they make up for any deviation from the straight course by a give and take process, so that the general line of march is straight.

During forty years in the country I never knew an Indian or white bushman to carry a compass. Apart from a black spruce swamp it would be no use whatever.

In going from one place to another the contour of the country has to be considered, and very frequently the "longest way round is the shortest way home." A ridge of mountains might lie between the place of starting and the objective point, and by making a detour round the spur one would easier reach his destination rather than to climb up one side and down the other.

If I were to tell you as a fact that when a bushman sees the track of some wild animal in the snow he can tell you not only the name of the animal, but if it was male or female, within an hour of the time the tracks were made. If it was calm or blowing and the direction of the wind at that time and many other mind things, you would think this wonderful. Yet, as wonderful as this may appear and hardly to be credited, an Indian boy of ten or twelve can read this page from nature as easily as one of us can read a page of print.—Forest

BY GRACE OF HARRIMAN.

Referring to the recent "back-down" of Governor Odell of New York in his opposition to the re-election of United States Senator Chauncey Depew, The Wall Street Journal, the most conservative and ablest edited financial paper in the country, says:

A seat in the United States Senate in exchange for a seat in the board of directors of the New York Central Railroad!

From the commercial standpoint such an exchange as this might seem to be equitable, a first-class trade in fact. If there is any advantage in the trade on one side or the other, most people would probably say that it was on the side of those who secured the seat in the board of directors of the railroad. In these days of vast corporate power a seat among the very elect in the railroad world would seem to be more desirable than a seat with the "fathers" of the Republic at Washington.

But imagine the feelings of Washington, Hamilton, Jefferson, Adams, Madison and the others who took part in the establishment of our government, if they should awaken now and learn that the choice of a United States senator, representing the greatest State in the union, depended upon the election of E. H. Harriman or one of his representatives as a director of the New York Central Railroad! The United States Senate has suffered a good deal in character and prestige in the past few years. While still containing much ability, with here and there a suggestion of its former intellectual and moral power, the Senate has been injured by the entrance into its membership of men whose only qualification for the position has been the number of millions which they have possessed, or the corporate influence with which they were backed. The term "Millionaire's Club" has been applied to the United States Senate, and in a degree it is not misapplied. But this is not all. Within a few months three members of the United States Senate have been indicted by grand juries for various offenses. But, so far as we are aware, the first time that the selection of a United States senator has turned upon a deal by which one of our leading railroad men secures representation in a great Eastern trunk line, has been in the case of the re-election of Senator Depew.

That Ex-Governor Odell was induced to withdraw his opposition to the re-election of Senator Depew in consideration of E. H. Harriman being given a representation in New York Central affairs is, in our opinion, one of the most extraordinary incidents in the political history of New York. We refer to this matter with no unkindness or prejudice toward Senator Depew, who has many abilities qualifying him for membership in the United States Senate, and who does not come in the category of those members of the Senate who are mere money bags, who have used their money to secure a seat in the Senate with the same vanity that they use it to erect a million dollar country seat or buy a million dollar yacht. As between Senator Depew and Ex-Governor Black, the only two candidates for United States Senate, we are strongly inclined to the opinion that Mr. Depew is altogether preferable, and so far

as his connection with the New York Central is concerned, we do not believe that the fact that he is an active railroad man should be an obstacle to his service in the Senate, any more than the fact that a man is a doctor, a minister or a lawyer should be any disqualification for that office.

This incident, however, illustrates in a striking way the increasing commercialism of politics, and the growing power of corporations in the administration of State governments. So far as they have been made public, the steps in this extraordinary Senatorial selection are about as follows: Governor Odell, desiring to make complete his power over the Republican organization in this State, wished to secure the election of a United States senator who would be in affiliation with him and on whom he could rely to obtain at least a part of the federal patronage in this State. This United States Senatorship was necessary to Governor Odell because Senator Platt, the deposed boss of the Republican machine, was unfriendly to him and because Senator Depew was accustomed to follow the leadership of Senator Platt. Therefore, Odell made a deal with Ex-Governor Black, the terms of which were that Black and his friends should make Governor Odell secure in the control of the State Committee, and in return Odell should make Black United States senator in the place of Depew.

Of course, the theory of our government is that the members of the Legislature elected by the people should sit in joint session, and gravely and conscientiously proceed to the election of the best qualified person in the State to represent the commonwealth in the Senate. But that is not the way things are done nowadays. The custom now is for a few politicians and agents of corporations to meet together and select the senator, the members of the Legislature simply acting as automatons to register their will.

Everything seemed to go as Governor Odell wished, and election of Governor Black as United States Senator appeared to be absolutely assured, when, presto! there was a sudden change. Governor Odell has seen a new light. Himself practically master of the Republican organization in the State of New York, he had a friend stranger than he to whose will he was obedient. This friend is one of the seven or eight controlling railroad men in the United States—the head of a trans-continental system. Developments in railroad politics made it desirable for Mr. Harriman to have representation in the New York Central Railroad. The easiest way to secure this was to strike a bargain by which Senator Depew, long the representative of the Vanderbilt interests in the New York Central Railroad, should be returned to the Senate in exchange for a directorship for Mr. Harriman. When the Black men observed signs of wavering in Odell and they demanded immediate announcement by him of his position in the Senatorial matter, he replied that he must first "see a man." That man was Mr. Harriman. It is evident that Mr. Harriman pronounced for Sen. Depew, and thus it has come to pass that Mr. Chauncey M. Depew, chairman of the board of directors of the New York Central Railroad, is to sit in the United States Senate for six years, beginning with the 4th of March next, by the grace of E. H. Harriman, president of the Southern Pacific Railroad.

J. N. Hale has sold The Dunnellon Advocate to J. C. Thompson, who will hereafter edit that paper. Mr. Hale retires on account of ill health. There is no reason why Dunnellon should not support a good weekly newspaper, and The Sun wishes the new proprietor all the success that his efforts deserve.

Deafness Cannot be Cured

By local application, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

NEWS OF CITY AND
COUNTY CONDENSED

Mr. and Mrs. George Graham of Crawfordville, Ind., have arrived in the city, and will be the guests of the former's brother, Jas. M. Graham, for several weeks. They were here three years ago and made many friends who will be delighted to greet them again.

Among the visitors to this city yesterday was Walter S. Turner of Micanopy. Mr. Turner brought to market several hundred pounds of pork, which had previously been engaged by Carter & Anderson. He is one of the most thrifty farmers of the county, and aside from that is conducting a market with great success at Micanopy. While here Mr. Turner made The Sun an agreeable call.

AT THE CHURCHES TODAY.

List of Various Places of Worship. Service for Women at Baptist.

Services will be observed at the various places of worship today as follows:

First Baptist Church, Rev. S. B. Rogers—Sunday school at 9:30 a. m.; preaching at 10:30 a. m. Subject, "Riches Toward God." In the afternoon, at 3 o'clock, Miss Annie Armstrong of Baltimore, corresponding secretary of the Woman's Work of the Baptist Church of the Southern States, will talk to the children interestingly. In the evening, Miss Armstrong will deliver an address to ladies exclusively, all of whom are cordially invited. Remember, no gentlemen will be allowed at this service. Miss Armstrong, who is a very earnest young lady, is the guest of Mrs. Rogers.

First Presbyterian Church, Rev. Thos. P. Hay—10:00 a. m., meeting of Session in Primary Class Room to receive members. 10:30 a. m., morning service by the pastor; 3:00 p. m., Sabbath school. Lesson topic: "The First Miracle in Cana." Monthly collection for Thornwell Orphanage; 6:15 p. m., Westminster League. Topic: "How to Win Souls for Christ." 7:00 p. m., Song service. Subject, "Heaven."

M. E. Church, South, Rev. T. J. Nixon, pastor—Preaching at 10:30 a. m. and 7:15 p. m. Subject of morning sermon, "Two Fundamental Truths for Christian Workers." Evening subject, "The Cost and the Reward of Following Jesus Christ." Sunday school, H. L. Phifer, Supt., 9:30 a. m. Junior League, 2:30 p. m. Senior League, 3:30 p. m.

Advent Christian Church, Rev. Joe Sherouse—Sunday school at 10 a. m. Morning sermon 11 o'clock. Subject, "Rightly Dividing the Word of Truth." Evening sermon, 7:15. Subject, "If Any Man Speak, Let Him Speak as the Oracles of God," being a reply to an article in the local press last week to the effect that the "soul, not the brain, is the thinking principal in man." The evening sermon will prove especially interesting to all.

Usual services at Holy Trinity Episcopal and St. Patrick's Catholic churches.

The public is invited to attend all places of worship. Seats are free. Strangers will receive a cordial welcome.

MOZLEY'S
LEMON ELIXIR

REGULATES THE
LIVER,
STOMACH,
BOWELS,
KIDNEYS.

The inventor of the famous "TERRELL SCRAPE," a man known wherever plays are sold and used, says:

"I have used MOZLEY'S LEMON ELIXIR for 10 or 12 years in my family for the stomach, liver and kidneys, and find it is the best medicine I have ever used. It is also a sure specific for pain in the back or under the shoulders. I have recommended it in numerous cases to my workmen, when sick and unable to work, and it has always given perfect satisfaction. H. D. TERRELL, President Atlanta Plow Co., Atlanta."

THE NEWS FROM MELROSE.

Yearwood & McDonald Will Incorporate—Personal Mention.

Melrose, January 21.—Mr. and Mrs. J. W. Johnson have gone on another camp hunt near Athens, in Clay county. Messrs. Yearwood & McDonald have applied to the governor for a charter, they having formed themselves into the Melrose Manufacturing Company.

W. E. Baker has gone to Jacksonville to represent the Melrose Lodge at the Grand Lodge meeting. Mr. Baker has also been appointed a delegate to the good roads meeting.

Colonel Tolles and family have arrived from Mangasack, Conn., for the season. Other new arrivals are Mrs. and Miss White of Boston, Mass.

W. S. Yearwood and family have rented the Earle cottage.

Dr. J. C. Davis of Kansas City is in town in the interest of his profession of oculist.

Among the entertainers of the week were Mrs. J. E. Whitehead and Mrs. A. O. Treadwell.

MRS. RHODES VERY ILL.

Daughter of Postmaster Arnow Rapidly Sinking at Flemington.

Information was received in this city Saturday to the effect that Mrs. Julia G. Rhodes, eldest daughter of Postmaster George J. Arnow, who resides at Flemington, was very low, and asked that the father and those relatives who could leave come to Flemington at once. Judge Arnow, Mrs. Rosa Waters and Benj. T. Arnow expect to make their departure early this morning for the Rhodes home.

Mrs. Rhodes is afflicted with lung trouble, and has been in miserable health for some time. Her numerous friends here will sympathize deeply in her affliction, but trust that her condition is not as serious as reported.

ACCIDENT AT WALDO.

Freight Train Crashed Into Early Bird, Resulting in Several Injuries.

Information reached this city Saturday to the effect that a freight train on the main line of the Seaboard Air Line crashed into the Early Bird train. The pilot of the engine pulling the freight struck the passenger car of the Early Bird just back of center, doing considerable damage and injuring slightly several passengers.

Among the most painfully injured was E. W. Millican, a naval stores operator well known here, who had an arm cut, and another man whose name could not be learned, was injured about the head. There were four or five others slightly bruised.

Is Making Improvements.

Mrs. Arnold of East Gainesville, who recently purchased the Mollvaine cottage, 805 N. Arredondo street, is making extensive improvements in the same. An addition of several rooms is being made, and the residence and premises are being otherwise improved. When completed it will be one of the most modern cottages in the city.

Bought Chamberlain's Cough Remedy and Sent it to Friends.

Mr. F. W. J. Fletcher, a druggist in Victoria, Australia, says: "A customer of mine was so pleased with Chamberlain's Cough Remedy, which she had used for her children when suffering from colds and croup, that during a fortnight's time she obtained at my shop, nine bottles, which she sent to her friends in different parts of the State, telling them how much good it had done and advised them to give it a trial." For sale by all druggists.

FUNERAL OF MR. STEPHENS.

Was Laid to Rest in Newnansville Cemetery Thursday—An Excellent Man.

Alachua, Jan. 21.—Mr. J. K. Stephens, who died in this place Wednesday morning, was buried Thursday in the Newnansville cemetery, Revs. W. O. Foster and V. H. Ellis conducting the funeral services. Mr. Stephens was eighty-four years old, being one of the oldest citizens in this section. He had served the Baptist church at this place as deacon since its organization, with honor to himself and the church. There are but few men in all walks of life equal to the upright and honest life that Mr. Stephens lived, and it can truly be said that a good man has gone to rest.

The Sparks Show.

The John Sparks show gave two performances in this city yesterday evening to good audiences, and sustained its previous reputation for giving a clean entertainment. The acts were all neatly done, the wire and acrobatic turns being the leading features. The performing elephant and horses were very pleasing, and the music by the band was a fine feature. Taken as a whole the Sparks show is up to the standard of tent performances and draws crowds wherever it appears.

AFFECTION IN JAPAN.

It Is Deep and Lasting, but, as a Rule, Not Outspoken.

Public demonstration of affection is most repugnant to the good taste of the Japanese, and it is the absence of this which is so generally mistaken for a lack of genuine feeling. I recall one man who was so devoted to his mother (though I doubt whether he could ever have been said to have "talked about" her) that when she died, while he was abroad, his depression was so profound that my husband watched him with anxiety lest he should commit suicide. The stoical training may render more unsympathetic a coarse nature, but repression to the refined soul brings an exquisite capacity for pain scarcely conceivable by those who are free to give utterance to every emotion.

Another man said to me, "I rarely speak of my mother, for a foreigner does not understand that a Japanese mother may be just as dear to her son as his to him and by the Japanese it is not expected that one should utter one's deepest feeling." That same son fainted with grief when his mother died and when consciousness returned rose to make light of a "little dizziness," without reference to its cause. To this day, whenever he goes from home, he carries with him his mother's letters, mounted on a beautiful roll of ivory and brocade, and on the anniversary of her passing beyond his mortal ken quietly devotes a portion of the day to meditation and special thought of her. Even to his wife, despite the closest bond of love, he says not, "This is the day of my mother's death."—Outlook.

Soup.

"Who goes there?" "Godfrey—Godfrey—Godfrey de Boulton," stammered the young actor with his first two line part. "Supe, supe!" yelled the unfeeling gallery.—Pittsburg Post.

THE REAL TEST

Of Herpicide Is in Giving It a Thorough Trial.

There is only one test by which to judge of the efficiency of any article and that is by its ability to do that which it is intended to do. Many hair vipers may look nice and smell nice, but the point is—do they eradicate dandruff and stop falling hair? No, they do not, but Herpicide does. Because it goes to the root of the evil and kills the germ that attacks the papilla from whence the hair gets its life.

Letters from prominent people everywhere are daily proving that Newbro's Herpicide stands the "test of use." It is a delightful dressing, pure and free from oil or grease. Sold by leading druggists. Send for stamps for sample to The Herpicide Co., Detroit, Mich.

NEWS TERSELY TOLD.

A Hopkinsville, Ky., dispatch says: Rev. Joseph D. Armistead, of Nashville, Tenn., has accepted a call to the Norwood Christian church at Cincinnati.

The general assembly of North Carolina adjourned in honor of Robert E. Lee's birthday. Many high tributes were paid to the famous general, which were applauded.

The large seagoing Dutch tug Swartzeze has been sold to Russia. She has already left Kiel for Libau and will probably accompany the third Russian Pacific squadron to the Far East.

The application for the appointment of a commission on the person and estate of Brodie L. Duke which was to have been made in the supreme court today, has been put over for one week.

By unanimous vote both houses of the legislature of Wisconsin adopted a resolution memorializing congress to strengthen the interstate commission along the lines asked by President Roosevelt.

A White Star line steamer, probably the Arable, from Queenstown for New York, was reported by wireless telegraph as passing Nantucket light ship at 12:15 a. m. The steamer will probably dock about 3 p. m.

The house of representatives of Illinois, adopted unanimously a joint resolution commending the course of President Roosevelt with regard to congressional legislation for the control of railroad freight rates.

Fire today entirely destroyed the new Mount Washington Methodist church at Pittsburg, entailing a loss of \$50,000. The burned church was dedicated last September and contained a \$5,000 Carnegie pipe organ.

Virella Uribe today shot and killed Eugenio Deval, as the result of a defamatory publication in the Porto Rico Sun attacking Valleriano Uribe, the father of Virella Uribe, and a member of the house of delegates.

A dispatch from Athens, Ala., says many of the cotton ginners decline to give the government agent, who is collecting cotton statistics, the number of bales ginned by them during the season, claiming that it is injurious to the cotton grower.

President Woodrow Wilson, of the Princeton university, who was operated on at the Presbyterian hospital in New York several weeks ago, has just been discharged from that institution. It is stated that the operation was entirely successful.

Two men and a woman, Italian rag

pickers, were burned to death in a fire today which destroyed the hotel they occupied in Harlem, N. Y. It was not known that the hut was tenanted and the bodies were not discovered until the ruins were searched.

Darrington Semple, a Wall street lawyer, is dead at his home in New York from heart disease. He came to New York ten years ago from Montgomery, Ala., where his father was a prominent lawyer, and at one time Democratic national committeeman.

Charles Jacobs, a negro, was shot and probably fatally wounded on a Vance and Poplar street car today in St. Louis. It is said that E. J. Broadfoot, conductor of the car, did the shooting because the negro pulled the register cord in an effort to stop the car.

Announcement was made today at the Schoenfeld plant of the pressed steel car company at Pittsburg, that the wages of the employees in all departments had been advanced 10 percent, the increase to date from the first day of the new year. Five hundred men are affected.

Edward Fletcher, for many years identified with the financial side of the theatrical business, is dead at his home in New York from a complication of diseases. He founded and was acting secretary of the Association of America, an organization numbering several thousand members.

CIGARETTES CAUSED HER DEATH

Chicago Woman Commits Suicide Because She Couldn't Quit Habit.

Chicago, Jan. 21.—Because her husband upbraided her for smoking cigarettes, a habit which had undermined her health and which she could not conquer, Mrs. Sadie Thompson, wife of Robert Oliver Thompson, sexton of the Oak Park Episcopal church, has swallowed a dozen pellets of corrosive sublimate and died after a long and agonizing illness.

While she was in the fatal grip of the drug, the sight of her grief-stricken husband and little daughter renewed her desire for life, and although a physical wreck, she prayed that she might live for her family's sake.

According to the testimony of Mr. Thompson, at the inquest, his wife had been addicted to the cigarette habit for several years.

FARMERS HOLDING COTTON.

Statistics Issued from New Orleans Extremely Bullish.

New Orleans, Jan. 21.—The most bullish set of statistics so far issued this year by the local cotton exchange were those showing the week end in sight and receipts and shipments up to noon today as compiled by Secretary Hestor.

The cotton in sight for the week was 151,862 bales, compared with 249,313 bales for the same week last year. When it is remembered that the crop this year is 3,000,000 bales larger than the one of last year, the full significance is shown.

The statement proves that the farmers are actually as well as theoretically holding back their cotton crop. The statement of receipts shows that only 75,155 bales were received during the week, while 109,806 were shipped from the entire country. At the rate prominent traders say that the ports of a country towns will soon be drained, and the farmer will have the situation entirely in his control.

Imperfect Indigestion

Means less nutrition and in consequence less vitality. When the liver fails to secrete bile, the blood becomes loaded with bilious properties, the digestion becomes impaired and the bowels constipated. Herbine will rectify this; it gives tone to the stomach, liver and kidneys, strengthens the appetite, clears and improves the complexion, infuses new life and vigor to the whole system. 50 cents a bottle. Sold by W. M. Johnson.

No Election in Missouri.

Jefferson City, Mo., Jan. 21.—After taking one ballot today without result for the United States senator to succeed Francis M. Cockrell, the joint session of the legislature dissolved. The ballot today the fourth taken, resulted as follows: Neidringhaus, 80; Cockrell, 81; Kerens, 9; Pettijohn, 1. Eighty-six votes were required to elect today. Both houses adjourned until 10 o'clock Monday. Neidringhaus lost one more vote today, Shaw of Dade county, voting for Kerens.

Pleasant and Most Effective.

T. J. Chambers, Editor Vindicator, Liberty, Texas, writes Dec. 25, 1902: "With pleasure and unsolicited by you, I bear testimony to the curative power of Ballard's Horehound Syrup. I have used it in my family and can cheerfully affirm it is the most effective and pleasant remedy for coughs and colds I have ever used." 25c, 50c and \$1.00. Sold by W. M. Johnson.

THE BRIDE'S PORTION.

At One Time It Was Stated In the Wedding Announcement.

It was a common custom in the eighteenth century, especially during the reign of George II., to insert notices of marriage stating the bride's portion in contemporary periodicals and newspapers both in England and Scotland.

Almost every number of the Gentleman's Magazine at that time contained several of these records, of which the following, in 1731, is a specimen: "Married, the Revd. Mr. Roger Wain, of York, about twenty-six year of age, to a Lincolnshire lady, upwards of eighty, with whom he is to have £8,000 in money, £300 per annum, and a coach and four, during life only."

Sometimes the notice merely describes the bride as a lady with a "good portion" or a "genteel fortune." One of the latest notices was in *Aris' Birmingham Gazette*, July 14, 1800, which recorded the marriage of Mr. Canning, undersecretary of state, to Miss Scott, "with £100,000 fortune."—London Telegraph.

Butterflies and Moths.

Though butterflies and moths are found widely distributed all over the globe they are by far most abundant in the tropics. For instance, Brazil can show to the collector not less than 700 different species within an hour's walk of Para. There are not half as many in all Europe. In Britain there are 67 species, and in all Europe there are 330 different kinds. They are found as far north as Spitzbergen, on the Alps to a height of 9,000 feet and on the Andes up to 18,000 feet. As there are some 200,000 species it is easy to see why butterfly hunters are great travelers.

The Monks of Tibet.

A traveler in Tibet says that the peasant women of that country are cheery and, when washed, buxom and comely. The monks are the blot on the landscape. They bear no resemblance to the women of the country. One would think they belonged to a different type, and yet they are the sons and brothers of these women. The reason probably is the low, degraded life led by the ordinary monk, a life without interest, without work, devoid of any pursuit, intellectual or otherwise, and passed in the droning of chants and the performance of ritual, the meaning of which they neither know nor care about.

The Upper Amazon Basin.

The whole upper Amazon basin is subject to annual overflows which make it impossible to build homes on the rivers, as we are accustomed to do on our American rivers. There are only a few points in all the great stretch of river country that are above the flooding point, and these are commonly composed of rock or clay, quite unfit for cultivation.

THE SECRET SERVICE

THE STATE SPIES OF EUROPE
DO THEIR WORK.Military Secrets Often Revealed by
Local Papers to Watchful Govern-
ment Agents—Russia and France
Partial to Female Spies.When people read or hear of a se-
cret service agent the picture of a man
armed to the teeth with revolvers and
rifles, a mixture of a Sherlock
Holmes and a Bill Sikes, rises before
their eyes.Now, as a matter of fact, the best
secret service agent in the world and
the one most generally relied upon by
the nations is the editor of the local
paper.Let us call the town Greenbeach and
assume that the government has de-
cided to build a hidden battery close
by. The editor of the Greenbeach Ga-
zette will announce in his columns that
Inspector or Captain So-and-so has
arrived at the local hotel to superin-
tend some work for the government.
Next week tenders will be invited for
bricks, cement and slabs. The foreign
intelligence man, reading this news in
Paris, Berlin or St. Petersburg, begins
to chuckle, "This is going to be in-
teresting."A few months pass, while foreign
eyes daily scan the paper for news of
the battery. At last the editor grave-
ly informs his readers that "new guns
for the battery now building have ar-
rived.""Ah," says the intelligence man,
"an agent in London must have a
look at that!" And accordingly one
day a pleasant foreigner arrives at
Greenbeach, starts painting the cliffs,
dines in the evening with the local
ladies at the bar and is a good listener
when yawns about the new battery are
told. Finally he departs and sends
his report to his chief, who hands it
on to his expert branch for close in-
vestigation.As regards the spies of the secret
intelligence service, it is interesting
to know that the supply largely ex-
ceeds the demand. For any one who
has not been in the service himself it
seems incredible what numbers of
scoundrels, young and old, are to be
found in most armies and navies who
will willingly sell their country's se-
crets to the highest bidder.These and a few specially appointed
agents are the main retailers of mil-
itary secrets. There are, further, the
observers, who, arriving in a strange
country, generally without money, turn
the knowledge they have acquired dur-
ing their time of service into money
by selling their country's secrets.On this account of course prices are
not so high as is generally believed.
For example, a government would rarely
pay "several thousand pounds" for
the purchase of a signal book. Was not
the secret of the French field guns sold
in 1868 to Germany for 5,000 francs
(£200), and such a secret has a hun-
dredfold the value of a signal book.Altogether the life of the secret ser-
vice man is not devoid of interest. He
gets hardened to the business, and if
it were not for the exciting fact that
where other people deal in goods he
deals in the lives of nations it would
soon pall.Of course on the first occasions when
you have been sent to a foreign coun-
try and carry papers in your pocket
which if found on you would obtain
for you twenty years' hard labor free
of charge, it is difficult to keep per-
fectly at ease when talking to a high
police officer or military official. In
the end, however, you get used to it
and careless till you are caught.The main agents of Russia and
France are ladies, while Germany pre-
fers men. So does Britain.The triumph of the French policy of
employing female spies was celebrated
in Italy when a well known lady of the
French embassy managed to get the
Italian minister into her toils. It was
at the time Italy intended to occupy

KALOLA CO., SAVANNAH, GA.Tunis and to establish a protectorate
there. The Italian fleet was preparing
at Palermo.In only two more days it would sail,
and Tunis would belong to Italy, when
during one of the lovers' meetings the
Italian minister let the secret out. The
rest belongs to history. France arrived
first and occupied Tunis.Here is another fact which may ap-
pear hardly credible, but is absolutely
true: At the beginning of the South
African war I had to consult with the
intelligence department of a large Ger-
man gun firm, and for fun the chief of
the department showed me the record
of the armaments of the Boers. Well,
this record was true to the last line,
while the report of the British intelli-
gence department contained not even a
list of guns sold to the Boers by Brit-
ish firms previous to the war.Great Britain has an excellent but
small secret service. We pry less per-
haps than any other power, but no im-
portant subject is left uncovered. We
spend perhaps £5 against £50 by our
continental neighbors, but much of
our intelligence costs nothing, being
accepted from honorary sources. For
this reason it is frequently valueless.
In the South African war many mis-
takes were made through inaccurate
news and the employment of people
who would go to any length to justify
their employment for the time being.The compilation of facts is fairly
easy in British possessions. Foreign
officers can always secure admission to
factories and dockyards, and the open-
ness of their treatment is not equalled
in any other country.—London Ex-
press.

A Grim Tragedy

Is daily enacted in thousands of
homes, as death claims, in each one,
another victim of consumption or
pneumonia. But when coughs and
colds are properly treated, the tragedy
is averted. F. G. Huntley of Oak-
land, Ind., writes: "My wife had
the consumption, three doctors gave
her up. Finally she took Dr. King's
New Discovery for Consumption,
coughs and colds, which cured her, and
today she is well and strong." It kills
the germs of all diseases. One now
relieves. Guaranteed at 50c and \$1.00
by all druggists. Trial bottles free.

YOUR MORNING DRAM.

Let It Be a Glass of Water and En-
joy an Inside Bath.Drink a glass of water when you get
out of bed in the morning. Never mind
the size of the glass. Let the water
be cold if you will. Some people pre-
scribe hot water, but that isn't neces-
sary. You may have washed your face
already and relished the experience.
You may have taken a cold plunge into
the tub and delighted in the shock and
its reaction. The brisk use of the tooth-
brush has left your mouth clean and
the breath sweet. But you are dirty
still.Drink a glass of cold water and en-
joy the sensation of being clean inside.
All that is luxurious in the cold bath
cleansing the outside is artificial. That
which should prompt the glass of wa-
ter after sleeping is natural.Drink a glass of cold water in the
name of cleanliness. It becomes one
of the shortest and easiest of toilet
duties. It is swallowed in a second,
and in five minutes it has passed from
the stomach taking with it the clog-
ging secretions of the alimentary
tract. It has left behind the stimulus
that goes with cold water, and, by fill-
ing the arterial system to the normal,
it puts a spur to the circulation that has
grown sluggish in the night.—Chicago
Chronicle.

Rev. Carlisle P. E. Martin, L. L. D.,

Of Waverley, Texas, writes: "Of a
morning, when first arising, I often
find a troublesome collection of
phlegm, which produces a cough, and
is very hard to dislodge; but a small
quantity of Ballard's Horehound Syrup
will at once dislodge it, and the trouble
is over. I know of no medicine that is
equal to it, and it is so pleasant to
take. I can most cordially recommend
it to all persons needing a medicine
for throat or lung trouble." 25, 50c
and \$1.00. Sold by W. M. Johnson.

JAPANESE FARMERS.

If the Man's Lot Be Hard, His Wife's
Is Still Harder.If the lot of a Japanese farmer be
hard, that of his wife is infinitely hard-
er. She not only does an equal amount
of labor in the field, but the care of the
household and the responsibility of the
children also rest upon her shoulders.From earliest infancy a Japanese
girl is taught to be obedient to her
parents and when she is about to be
married her mother gives her thirteen
rules by which to steer her bark on
the rugged sea of Japanese married
life. Among them are the following:
"Be always kind to your mother-in-
law and sisters-in-law." "Get up early,
stay up late at night and do not take
a nap in the daytime." "Be a good
housekeeper, be economical in every-
thing." "It is well for the happiness of
the girl who is about to become a
farmer's wife that the last two com-
mandments have been so instilled that
she is prepared to regulate her life by
them."The first to rise, she is sure to be the
last to retire, and when the male mem-
bers of the family may be seen stretch-
ed on the floor taking their siesta the
patient housewife may be seen mend-
ing some garment or else laboring in
the field. It is scarcely necessary,
however, to train her to be economical,
for that is compulsory.Before the farmer has awakened
from his heavy sleep his little wife
creeps from under the mosquito net,
and, performing a hasty toilet, prepares
the morning meal. When the other
members of the family arise, the beds,
which are heavy quilts placed on the
floor, are carefully rolled up by the
busy housewife and placed in the
closet, there to remain until again re-
quired.As there is so little furniture used in
a Japanese house, and especially in that
of a peasant, one would naturally think
that the domestic duties would be very
light. Such, however, is not the case.When the bedding has been removed,
the meal is then served in the same
room. All the members of the family
quaint on the floor. The millet or rice,
which is the principal and oftentimes
only article of diet, is brought in in a
wooden bucket, and the wife ladles it
out, serves her husband first and often-
times waits until the whole family has
finished before she partakes of the food
herself.When the husband has gone to the
field the wife removes the dishes and
washes them, together with any pots
that may have been used at the neigh-
boring well or in the stream that flows
just outside her cottage door. These
canals or streams are a great labor-
saving institution in Japan and are
used for many and varied purposes.
The farmer, tired and dirty after his
day's work, refreshes and cleanses
himself by a plunge into the running
water. As one travels through the
country at one point one may see a
woman doing the family washing in
the stream. Farther down the road
the tired, travel stained pilgrim may
be seen refreshing his weary feet by
laving them in the same water. At
other points travelers slake their thirst,
dusky urchins disport themselves, and
the overworked wife cleanses her dish-
es in it.—Ada L. A. Murett in Pil-
grim.

Do Not Suppress a Cough.

When you have a cough do not try to
suppress it, but remove the cause. The
cough is only a symptom of some dis-
ease, and that disease is what you
should cure, then the cough will stop
of itself. The most common cause of
coughing is a cold. Anodynes will
promptly suppress the cough, and
preparations containing chloroform,
opium, etc., are used for that purpose,
but they do not cure the cold. Cham-
berlain's Cough Remedy on the other
hand does not suppress the cough, but
relieves it by removing from the
throat and lungs the mucus which ob-
structs the breathing and irritating the
throat. It also opens the secretions and effec-
tually and permanently cures the cold
as well as the cough. For sale by all
druggists.

READ THIS.

Ripley, Tenn., June 1, 1901.
Dr. E. W. Hall, St. Louis Mo.—Dear Sir: Having tried various remedies without satisfactory results, I was persuaded to give your "Texas Wonder" a trial. I have used one bottle, and although my case is one of long standing that baffled the skill of the best physician, yet it yielded at once to "The Texas Wonder," which I heartily recommend to all suffering from kidney and bladder troubles.

Yours truly,
W. H. BRUNSON,
Pastor Baptist Church, Ripley, Tenn.

A TEXAS WONDER.

One small bottle of the Texas Wonder, Hall's Great Discovery, cures all kidney and bladder troubles, removes gravel, cures diabetes, seminal emissions, weak and lame backs, rheumatism and all irregularities of the kidneys and bladder in both men and women, regulates bladder troubles in children. If not sold by your druggist, will be sent by mail on receipt of \$1. One small bottle is two months' treatment and seldom fails to perfect a cure. Dr. Ernest W. Hall, sole manufacturer, P. O. box 629, St. Louis, Mo. Send for testimonials. Sold by all druggists.

Insure with Cushman & Hill.
